

## VViivid+ Premium Vinyl Wrap Film Color Chart

VViivid®'s Matte Finishes - This line offers a high sheen finish that is very similar to matte painted surfaces. VViivid®'s matte finishes are easy to clean and maintain, they are not prone to fingerprints, grime stains and blemishing during cleaning.

VViViD®'s Gloss Finishes - This line offers a high gloss finish that is very similar to OEM painted surfaces. VViViD®'s gloss finishes are easy to install, clean and maintain.

VViViD® makes a full gloss carbon fiber wrap that isn't printed! Tech Art Gloss Carbons are safe to use for exterior applications, it is completely chemical and water proof.

VViViD®'s Chrome vinyl wraps come in several flavors: Satin, Holographic and Mirror. Our chrome wraps are different than standard chrome wraps in that they feature SuperCast Conform Technology to be able to easily form to the most complex surfaces. Also, these wraps come pre-laminated to prevent any fading and discoloration with time and exposure to the sun.
